**IDAHO POWER COMPANY'S
PETITION FOR HEARING ON
MAY 19, 2005, SECOND
AMENDED ORDER AND
REQUEST FOR
INDEPENDENT HEARING
OFFICER**

Idaho Power Company ("Idaho Power"), by and through its counsel, respectively submits this Petition for a Hearing on the Second Amended Order issued by the Director of the Idaho Department of Water Resources, Karl Dreher, on May 19, 2005 (the "Rangen Order"), in accordance with Idaho Code § 42-1701A(3), and Idaho Department of Water Resources ("IDWR"), Procedure Rule 740.02.b. IDAPA 37.01.01.740.02.b. Idaho Power also hereby requests appointment of an independent hearing office in accordance with Idaho Code § 42-1701A(2).

I. INTRODUCTION

Idaho Power holds water rights in Basin 36, water rights at Swan Falls, and minimum flow rights under the Swan Falls Agreement, which are threatened by the Director's findings in the Rangen Order. In the Rangen Order, the Director effectively reopens consideration of Rangen's decreed rights and determines that they were improperly or excessively decreed by the SRBA Court, despite the fact that the decrees from the SRBA Court are based on IDWR's own findings and recommendations. The Director then finds that these rights can be filled when water is available, but that Rangen may not enforce the full extent of its decreed water right through a call. Senior decreed water rights, such as Idaho Power's rights, are threatened by this finding which refuses to honor and administer water rights as decreed by the SRBA Court.

The Rangen Order also improperly finds that Rangen's call is futile. This futile call finding puts all senior water rights in jeopardy by failing to recognize the senior's right to full delivery and failing to administer water rights to satisfy the senior calling right. Further, the Director improperly relies upon the model, which contrary to the Director's findings is not a sufficient and accurate tool to conjunctively administer surface and groundwater rights in the Snake River and Eastern Snake Plains Aquifer ("ESPA"). Accordingly, the Director erroneously finds that curtailment would result in an insignificant quantity of water accruing to the Thousand Springs to Malad Gorge spring reach and the Snake River as reach gains.

II. ARGUMENT

A. Idaho Power Has Standing and is an Aggrieved Party

In order to initiate a contested hearing on an order issued by the Director, an aggrieved party must file a written petition stating the grounds for contesting the action by the Director and requesting a hearing. Idaho Code § 42-1701A(3); IDAPA 37.01.01.740. The form and content

of the petition is provided by Idaho Department of Water Resources, Procedure Rule 230.

IDAPA 37 01 01.230.

Idaho Power is an aggrieved party in this action because it holds senior decreed water rights in Basin 36, water rights at Swan Falls, and contract rights for minimum flows under the Swan Falls Agreement. These rights are threatened by the Rangen Order which unilaterally amends and selectively enforces Rangen's senior decreed water rights. As such, should Idaho Power be forced to initiate a call to protect its senior decreed water rights in the future, the Rangen Order sets a dangerous precedent by refusing to recognize and enforce the terms of the SRBA decrees and finding that such calls are futile. Accordingly, Idaho Power is an aggrieved party and seeks a hearing to challenge the Rangen Order.

1. Idaho Power's Water Rights in Basin 36

Idaho Power's water rights in Basin 36 include the following, all of which have been partially decreed by the SRBA District Court:

<u>Water Right #/Basis</u>	<u>Source</u>	<u>Priority</u>	<u>Amount</u>	<u>Use</u>
36-2704	Niagara Springs	01/31/1966	120.0 cfs	Irrigation Domestic, Fire Protection, Fish Propagation
36-2082	Billingsley Creek	12/10/1948	5.0 cfs	Irrigation, Cooling, Fire Protection
36-2710	Clear Lake Springs	07/24/1940	0.1 cfs	Irrigation, Cooling, Domestic
36-2037	Spring	10/29/1921	0.3 cfs	Irrigation, Cooling Commercial, Domestic 3 Homes
36-15221	Niagara Springs	03/03/1982	0.04 cfs	Domestic
36-15357	Snow Bank Springs Thousand Springs	09/30/1936	0.11 cfs	Irrigation, Domestic 3 Homes

36-15358	Snow Bank Springs Thousand Springs	06/20/1924	0.03 cfs	Irrigation
36-7104	Springs	12/10/1969	0.3 cfs	Domestic, Irrigation
36-2478	Upper Tucker Springs	10/21/1939	3.21 cfs	Irrigation, Stockwater, Cooling, Domestic, Fire Protection
36-15388	Spring	12/10/1949	0.15 cfs	Commercial, Domestic

See EXHIBIT A.

2. Idaho Power's Rights at Swan Falls

Idaho Power holds four water rights at Swan Falls: three licensed rights for 4000 cfs, 1,840 cfs and 1,460 cfs, – and a decreed water right with a 1900 priority for 4,000 cfs. (Water right Nos. 02-2032, 02-4000, 02-4001, and 02-0100 respectively). These water rights are subject to the Swan Falls Agreement (October 25, 1984) and the minimum flow, and other, provisions contained therein, and were decreed by the Ada County District Court in Case Nos. 81375 and 62237. See EXHIBIT B.

B. Grounds for Contesting the Action

In the Rangen Order, the Director looks behind Rangen's decree for water right No. 36-07694 to determine that the water right should never have been decreed for the amount claimed. See Rangen Order, Paragraphs 62 and 63, pages 14-15. In doing so, the Director disregards that this decree was based on the IDWR's findings and recommendations and dismisses the claimed and decreed amounts as "estimates" rather than an "actual measurement." Id. On that basis, the Director determines that while Rangen may divert water under water right No. 36-07694 when it is available, Rangen may not successfully prosecute a call for water under this water right.

The Director's attempts to amend or selectively enforce water rights decreed by the SRBA is plainly erroneous. Nothing in Idaho law gives the Director the authority to unilaterally

amend decreed water rights; nothing in Idaho law gives the Director the authority to ignore the terms of a decreed water right; and nothing in Idaho law gives the Director the authority to selectively enforce and administer decreed rights. Not only has the Director acted in direct contravention of Idaho law, the Rangen Order exceeds and abuses the limited authority granted by the SRBA Court allowing the Director to conjunctively administer decree water rights on an interim basis

Further, the Rangen Order improperly concludes that the Rangen call is futile. The futile call finding in the Rangen Order puts senior water rights in jeopardy by placing all of the risk of water shortage on seniors instead of allocating responsibility to junior water rights. Rather than order mitigation to satisfy the senior calling right, or devise a limited curtailment call, the Director essentially ignores the claims of the senior water rights holder and refuses to make the senior water right whole. This adverse precedent could potentially impede the ability of other senior water rights holders, including Idaho Power, to place a call against junior groundwater pumpers to protect senior water rights.

The Director also erroneously concludes that curtailing junior priority groundwater rights will result in insignificant reach gains in the Thousand Springs to Malad Gorge reach. The model is not sufficiently accurate to support this conclusion, as is evidenced by the Director's reliance on a 10% error in the Conclusions of Law to support a futile call finding. See Rangen Order, Paragraph 25, page 28. The model was not properly calibrated to determine the effect of curtailing junior groundwater pumping on reach gains throughout the Snake River and the ESPA, and therefore cannot accurately predict the effect of groundwater pumping on reach gains. As such, the Director improperly relied on the model in determining that Rangen's call is futile.

In addition, Idaho Power intends to challenge the Rangen Order on questions of law and

fact, including, but not limited to, the issues raised in this petition for a hearing. For example, Idaho Power intends to argue that the Director erred in relying on the computer model because it is not sufficiently complete, accurate and reliable to conjunctively administer water rights in the Snake River and the Eastern Snake Plains Aquifer. Without limiting the scope of discovery or the hearing in this matter, Idaho Power reserves and by such reservation shall be entitled to determine through discovery or otherwise whether the IDWR's computer model is sufficiently and adequately calibrated, whether the calibration was conducted appropriately and whether the hydrogeologic basis for the IDWR's computer model, such as the direction and location of the movement of groundwater, and the assumptions used in developing and utilizing the model, such as transmissivity, are accurate and appropriate. Finally, Idaho Power shall be entitled to ascertain the basis and assumptions by the Director in using the model as the basis for the findings in the Rangen Order.

Idaho Power incorporates by reference the grounds for protest as may be submitted by other parties contesting this order. Idaho Power also expressly reserves the right to raise additional issues as they come to light during discovery and the hearing process.

C. Request for Independent Hearing Officer

In addition to the above, Idaho Power respectfully requests that the Director appoint an independent hearing officer in this matter. Idaho Code § 42-1701A(2) allows the Director, in his discretion, to appoint a hearing officer. Rule 410 of the IDWR Rules of Procedure also call for an independent hearing officer, other than the agency head, to hear contested cases. IDAPA 37.01.01 410.

In this matter, an independent hearing officer should be appointed to hear the contested case and review the Rangen Order because it would be inappropriate for the Director to preside

over an administrative matter contesting his own order. Further, the Director has apparently taken part in the IDWR factual investigations that informed the Rangen Order. In that regard, the Director may be a fact witness in the hearing process to determine how the factual investigations were conducted and what information was gathered. The Director has also been a participant in past settlement negotiations, and has had direct contact and communications with the parties to these matters that could potentially bias his involvement in an administrative hearing contesting the Rangen Order. The Director has also been involved in the supervision and calibration of the model, and for that reason may be called as a fact witness. For all of these reasons, an independent hearing officer should be appointed to conduct a hearing on the Rangen Order.

D. Standard of Review at Requested Hearing

The hearing requested by Idaho Power, if granted, will be the first formal hearing before an independent hearing officer in this matter. Since there is no administrative record at this time, Idaho Power is not requesting a review of the Rangen Order; rather, Idaho Power seeks the opportunity to present evidence, develop the record, and obtain a *de novo* review of the Rangen Order. In that regard, an independent hearing officer is not bound by the determinations of the Director; instead, the independent hearing officer will be considering the matter on a fully developed factual and legal record for the first time, and must make a determination based on all of the evidence presented at the hearing.

E. Burden of Proof

In the Rangen Order, and in previous interim orders from the Director, the Director contorts the burden of proof to remove any obligation on the part of the junior ground water pumpers to demonstrate that they are not causing injury to senior water rights. In the Rangen

Order, and other orders, the Director improperly shifted the burden of proof to the senior water rights holders to demonstrate that injury to their water rights is material, that their claims should not be reduced, that they have made full beneficial use of their claimed diversions, and that they should receive their full amount of permitted, decreed and adjudicated claims.

Contrary to the erroneous findings of the Director, senior water rights holders are entitled to the full amount of their permitted, decreed and adjudicated claims. Senior water rights holders, have made a *prima facie* showing that senior water rights are receiving less than their permitted, decreed and adjudicated claims for water, and senior water rights holders are not required to do more than make this *prima facie* showing.

At the requested hearing, the junior ground water pumpers must have the burden of proof in demonstrating that their diversions are not causing harm to senior water rights. The burden of proof is on the junior water rights holders to demonstrate that the injury to senior water rights holders is not material, that a call is futile, that the seniors' claims should be reduced or, for any other reason, a senior should not receive the full permitted, decreed, and adjudicated amount of the claimed water right.

III. CONCLUSION

Idaho Power is an aggrieved party with standing to contest the Rangen Order. Accordingly, Idaho Power respectfully requests a hearing to contest the actions of the Director before an independent hearing officer as provided by Idaho Code § 42-1701A.

WHEREFORE, Idaho Power respectfully requests a hearing on the Rangen Order before
an independent hearing officer.

ORDER AMENDING IRRIGATION PERIOD OF USE ELEMENT
IN PARTIAL DECREE AND INCORPORATING INTO PARTIAL
DECREE AN EXPRESS STATEMENT REGARDING GENERAL
PROVISIONS, *NUNC PRO TUNC*

A *Partial Decree* was entered for the above-captioned irrigation water right on November 25, 1997. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this recommendation and the time period for filing objections has now expired.

THEREFORE, IT IS ORDERED that the period of use for the irrigation element of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 02-15 11-30

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

PROVISIONS, *NUNC PRO TUNC*

A *Partial Decree* was entered for the above-captioned irrigation water right on March 02, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this recommendation and the time period for filing objections has now expired.

THEREFORE, IT IS ORDERED that the period of use for the irrigation element of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-15 11-15

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

PERIOD OF USE: 02-15 11-30

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

IN THE DISTRICT COURT OF THE FOURTH JUDICIAL DISTRICT OF THE
 STATE OF IDAHO, IN AND FOR THE COUNTY OF ADA

IDAHO POWER COMPANY,
 a corporation,

Plaintiff,

vs.

STATE OF IDAHO, IDAHO DEPARTMENT
 OF WATER RESOURCES, et al.

Defendants.

Case No. 81375

CONSENT JUDGMENT

Upon stipulation of Plaintiff and the State
 Defendants, and good cause appearing;

IT IS HEREBY ORDERED, ADJUDGED AND DECREED:

1. Idaho Power Company's water rights shall be as
 follows (bracketed names below refer to Company projects):

A. State Water License Numbers 36-2013
 (Thousand Springs), 37-2128 & 37-2472 (Lower
 Malad), 37-2471 (Upper Malad), 36-2018
 (Clear Lake), 36-2026 (Sand Springs),
 02-2057 (Upper Salmon), 02-2001A, 02-2001B,
 02-2059, 02-2060 (Lower Salmon), 02-2064,
 02-2065 (Bliss), 02-2056 (Twin Falls),
 02-2036 (Shoshone Falls), 02-2032, 02-4000,
 02-4001, and Decree Number 02-0100 (Swan
 Falls) entitle the Company to an
 unsubordinated right of 3900 c.f.s. average

1 daily flow from April 1 to October 31, and
2 5600 c.f.s. average daily flow from November
3 1 to March 31, both to be measured at the
4 Murphy U.S.G.S. gauging station immediately
5 below Swan Falls. These flows are not
6 subject to depletion. The Murphy gauging
7 station is located at latitude 43°17'31",
8 Longitude 116°25'12", in NW1/4 NE1/4 SE1/4
9 of Section 35 in Township 1 South, Range 1
10 West, Boise Meridian, Ada County Hydrologic
11 Unit 17050103, on right bank 4.2 miles
12 downstream from Swan Falls Power Plant, 7.5
13 miles NE of Murphy, at river mile 453.5.

14 B. The Company is also entitled to use the
15 flow of the Snake River at its facilities to
16 the extent of its actual beneficial use, but
17 not to exceed those amounts stated in State
18 Water License Numbers 36-2013 (Thousand
19 Springs), 37-2128 & 37-2472 (Lower Malad),
20 37-2471 (Upper Malad), 36-2018 (Clear Lake),
21 36-2026 (Sand Springs), 02-2057 (Upper
22 Salmon), 02-2001A, 02-2001B, 02-2059,
23 02-2060 (Lower Salmon), 02-2064, 02-2065
24 (Bliss), 02-2056 (Twin Falls), 02-2036
25 (Shoshone Falls), 02-2032, 02-4000, 02-4001,
26 and Decree Number 02-0100 (Swan Falls), but
27 such rights in excess of the amounts stated
28 in 1(A) shall be subordinate to subsequent
beneficial upstream uses upon approval of
such uses by the State in accordance with
State law unless the depletion violates or
will violate paragraph 1(A). Company
retains its right to contest any
appropriation of water in accordance with
State law. Company further retains the
right to compel State to take reasonable
steps to insure the average daily flows
established by this Agreement at the Murphy
U.S.G.S. gauging station. Average daily
flow, as used herein, shall be based upon
actual flow conditions; thus, any
fluctuations resulting from the operation of
Company facilities shall not be considered
in the calculation of the minimum daily
stream flows set forth herein. This
paragraph shall constitute a subordination
condition.

29 C. The Company's rights listed in
30 paragraph 1(A) and 1(B) are also subordinate
31 to the uses of those persons dismissed from
32 this case pursuant to the contract executed
33 between the State and Company implementing
34 the terms of Idaho Code §§61-539 and 61-540.

1 D. The Company's rights listed in
2 paragraph 1(A) and 1(B) are also subordinate
3 to those persons who have beneficially used
4 water prior to October 1, 1984, and who have
5 filed an application or claim for said use
6 by June 30, 1985.

7 E. Company's ability to purchase, lease,
8 own, or otherwise acquire water from sources
9 upstream of its power plants and convey it
10 to and past its power plants below Milner
11 Dam shall not be limited by this agreement.
12 Such flows shall be considered fluctuations
13 resulting from operation of Company
14 facilities.

15 2. The above-captioned case is hereby dismissed
16 without prejudice as to all remaining defendants other than the
17 State defendants.

18 3. The above-captioned case is hereby dismissed with
19 prejudice as against the State defendants as to all claims of
20 plaintiff not resolved by the decisions of the Idaho Supreme
21 Court reported as Idaho Power Company v. State of Idaho, 104
22 Idaho 570, 661 P.2d 736 and 104 Idaho 575, 661 P.2d 741 (1983)
23 or by the entry of this Judgment.

24 4. The Swan Falls Agreement, dated October 25, 1984,
25 shall not be merged into nor integrated with this Judgment, but
26 shall remain in full force and effect independent of this
27 Judgment.

28 5. Each and all parties shall bear their own costs.
